Burlington, MA 01803
Phone: 781-345-9001
Website: www.conformis.com

ConforMIS, Inc. is a privately-held company that develops and commercializes medical devices for osteoarthritis treatment and joint damage. Its proprietary intellectual property includes more than 300 patents and patent applications in the areas of imaging software, image processing, implant design, surgical techniques, instrumentation, and manufacturing, spanning knee, hip, shoulder, spine, and small joints. ConforMIS knee implants and instrumentation are designed to address all stages of osteoarthritis, the most common reason for knee replacement surgery. All devices have been cleared by the US Food and Drug Administration for marketing in the US. In 2009, ConforMIS was named a winner of the Medical Design Excellence Awards, the premier recognition for contributions and advances in the design of medical products, for its iUni and iDuo resurfacing implants.

Website: www.jouleunlimited.com

Founded in 2007 by Flagship VentureLabs, Joule is advancing a technology platform for Liquid Fuel from the Sun, expected to eclipse the scale, productivity and cost efficiency of any known alternative to fossil fuel today. Its transformative Helioculture™ platform directly and continuously converts sunlight and waste CO2 to infrastructure-ready diesel, ethanol or commodity chemicals with no dependence on biomass feedstocks, downstream processing or precious natural resources. This process can yield renewable fuels and chemicals in unprecedented volumes with a fraction of the land required by current methods, leapfrogging biomass-dependent approaches and eliminating the economic and environmental disadvantages of fossil fuels.

Mykonos Software

370 Brannan Street
San Francisco, CA 94107
Phone: 650-329-9000
Website: www.mykonossoftware.com

Mykonos is the smartest way to secure Websites and Web applications against hackers, fraud and theft. Its Web Intrusion Prevention System uses deception to detect, track, profile and prevent hackers in real-time. Unlike legacy signature-based approaches, Mykonos is the first technology that inserts thousands of detection points to proactively identify attackers before they do damage - without any false positives. Mykonos goes beyond the IP address to track the individual attacker, profile their behavior and deploy counter measures. With the Mykonos Web Security, administrators are liberated from writing rules, analyzing massive log files or monitoring another console. Mykonos neutralizes threats as they occur preventing the loss of data and saving companies millions of dollars from fraud or lost revenue.

NeuroGenetic Pharma

445 Marine View Ave., Suite 101
Del Mar, CA 92014
Phone: 858-461-4480
Website: www.neurogeneticpharmaceuticals.com

NeuroGenetic Pharmaceuticals, Inc. (NGP), a biopharmaceutical discovery and development company founded in 2009, is developing innovative drug therapies for Alzheimer's disease. Based in San Diego, Calif., the company's next objective is to obtain an Investigational New Drug approval for its clinical candidate, NGP 555. Future clinical trials will utilize specific amyloid biomarkers and/or brain scanning as an early diagnostic and to monitor drug efficacy in clinical trials. Combining early disease identification with a treatment capable of preventing AD-related pathology, such as NGP 555, would represent an important advance in our ability to prevent AD or hinder its progression to dementia.

Website: www.sprtherapeutics.com

SPR Therapeutics is a medical device company that is commercializing pain treatments utilizing its proprietary peripheral nerve stimulation (PNS) products. We are developing a pipeline of neurostimulation pain therapies that will exploit the same physiologic mechanism of action, proprietary technology, and clinical approach. The first product to be commercialized is the SMARTPATCH™ PNS System, which is a short-term, minimally invasive system that is simple to deliver and can be used for up to 30 days to stimulate electrically a peripheral nerve to relieve pain. SPR Therapeutics was formed in January, 2010 as a portfolio company of NDI Medical, LLC.

Warp Drive Bio

215 First Street, Suite 430
Cambridge, MA 02142
Phone: 617-492-0913
Website: www.warpdrivebio.com

Warp Drive Bio is driving the reemergence of natural products in the era of genomics to create breakthrough treatments that make an important difference in the lives of patients. Built upon the belief that nature is the world's most powerful medicinal chemist, Warp Drive Bio is deploying a battery of state-of-the-art technologies to access powerful drugs that are now hidden within microbes. Key to the Warp Drive Bio approach is the company's proprietary 'genomic search engine' and customized search queries that enable hidden natural products to be revealed on the basis of their distinctive genomic signature. Launched in 2011 through a groundbreaking strategic partnership with Sanofi and with financing from Third Rock Ventures and Greylock Partners, the company was founded by renowned scientist Dr. Gregory Verdine, along with Dr. George Church and Dr. James Wells.
